Mission Statement

UNITY GLASS INDUSTRY always stands for quality, service, value, transparency, ethics and honesty to clients. We believe in continuous improvement and innovative changes in our product range to provide our customers best of our services. Our organization believes in business ethics, trust, human relationship and will strive to strengthen all three elements in our employees, customers and business peers. **“VENTURE WITH UNITY”** and let us build trust and reputation in our business relationship and grow together unitedly.

Our Management Team

Under the able and efficient guidance, provided advice and helped navigation of **Our Founder & Director Mr. V. C. Rohit**, we have been able to position ourselves among the leading manufacturers of the Industry. Having Pioneering experience of thirty years in Glass Industry motivates us to put our best efforts to achieve maximum client satisfaction.

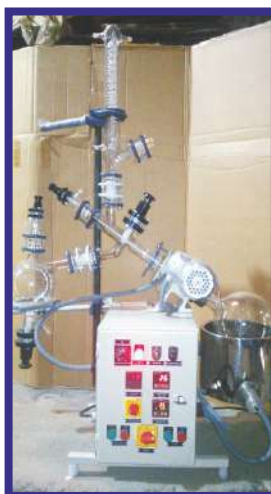

Accompanying Our Director **Mr. V. C. Rohit** his Elder Son **Mr. Pramod Rohit** (IT Engineering) looks after sales and co-ordination activities & younger son **Mr. Sachin Rohit** (IT Engineering) looks after finance & outsourcing activities. Started from humble beginnings, but turned around their fortune with the right mix of intelligence, ambition, determination and perseverance. Their stories of hardship, labour and success set new benchmarks and serve as an inspiration to everyone.

Our Introduction

UNITY GLASS INDUSTRY established in the year 2002, we are one of the Leading & Pioneer Manufacturer since 2 decades stand tall and successfully catering our best of services. All our products are made using best quality raw material such as borosilicate glass and other essential raw material. Being crack-resistant, heat resistant and chemical resistant, our offered products find applications in pharmaceuticals, nutraceuticals, intermediates, fine chemicals, agro chemicals, precious metal industry, flavours & perfume industry, specialty chemicals, pigments, petroleum, polymers, biochemical & biotechnology, sugar & dairy, government institutes, hospitals, Apart from this, our products are used for storing and for conducting various experiments in R&D Centres, laboratories, schools, colleges and many other industries where Glassware is Essential.

We have a sound infrastructure and a competent workforce enable us in executing our endeavour in a smooth and proper way. Optimizing the use of cutting edge technology, we are able to bring forth the offered range within the specified time limit. For the ultimate satisfaction of our clients, we thoroughly check the raw material, finish products as per the specifications detailed by the clients along with the facility of OEM and private labelling on each products. Owing to our ethical business practices and cordial approach towards clients, we have esteemed clients base across the nation.

Industrial Glassware

Our Industrial Glassware products are well known all over the world for their outstanding features. These features include heat resistance, dimensional accuracy, resistance to alkali and other chemicals. Our products find their application in pharmaceutical and chemical industry. We are manufacturer and supplier of industrial glassware products which are made of good quality raw material so as to tolerate thermal shocks and chemical reactions. We offer a wide range of products which includes Bottom Flush Valve, Cylindrical vessels, Receiver pot & Column components. Other products include Spherical Vessels, valves and fittings, Process Plants and others as well.

Standard Glass Process Plants

We are engaged in manufacturing Glass Process Plant that is fabricated from excellent quality raw material which includes borosilicate tubing. These have a rugged construction which ensures long life to the products. Our Borosilicate Glass Plants are the best and offers resistance to chemicals, heat and crack. These are precisely engineered and find application in scientific procedures.

Laboratory Glassware

A wide range of Laboratory Glassware are offered by our organization that is available in various shapes and sizes. Laboratory Glassware are made using superior quality glass and other raw material, sourced from the reliable vendors. Featured with durability and reliability, Laboratory Glassware are widely used in hospitals and other scientific & research laboratories.

Customised Glass Unit

An extensive variety of glass unit is offered by us which is precisely designed to attain perfection. Made using Best quality glass, these units are chemical proof, heat resistant and offer long term usage. These are widely appreciated by the clients owing to its dimensional accuracy and crack resistance.

Laboratory Assembly

Sight Glass

Available with us a sight glass M.S., S.S. with standard sizes and can give customised sizes as per requirement. These sight glasses are available with metal body, glass pipe section and PTFE bushes & washer, Owing to optimum thermal strength, thermal shock and corrosion resistance, our offered products are widely popular in both domestic and global market.

Technical Packages

- Bromine recovery system
- Falling film absorber
- Solvent recovery
- Anhydrous HCL gas generator
- Sulphuric acid concentration
- Continuous distillation system
